

System Requirements, the Adobe PDF Library

Note that Adobe PDF Library 18 only supports Windows and Linux 32 and 64 bit, and Mac 64 bit. For Windows platforms, Adobe PDF Library 18 only supports Visual Studio 2017 and 2019, and for AIX, Adobe PDF Library 18 does not provide support for the .NET interface. Adobe PDF Library 15 supports the platforms listed below.

Windows 32 & 64

- Compiler: MS Visual Studio 2013
- Development Environment: MS Visual Studio 2013, 2015

Linux 32 & 64

- Operating System: Redhat Linux 6, 7
- Compiler: GCC 4.4 and higher
- Development Environment: GCC 4.4 and higher

Mac 32 (Mactel) and 64 (APDFL 10.1 only)

- OS X 10.5, 10.6 for Mac 64
- Compiler: XCode 5.x, 6.x, 7.x
- Development Environment: XCode 5.x, 6.x, 7.x

AIX 32 & 64 (IBM pSeries)

- Operating System: AIX v6.1
- Compiler: XL C 11.1
- Development Environment: XL C 11.1

Intel Solaris 32-bit

- Operating System: Solaris 10
- Compiler: gcc v3.4
- Development Environment: gcc 3.4

Intel Solaris 64-bit

- Operating System: Solaris 10, 11
- Compiler: GCC 4.6 and higher
- Development Environment: GCC 4.6 and higher

SPARC Solaris 32-bit

- Operating System: 32-bit Solaris 9
- Compiler: GCC 4.1
- Development Environment: GCC 4.1

SPARC Solaris 64-bit TEST

- Operating System: Solaris 10, 11
- Compiler: gcc v4.6 and higher
- Development Environment: gcc 4.6 and higher

Hewlett Packard PA-RISC 32-bit & 64-bit, Itanium 64-bit

- Operating System: HP-UX 11i v3 (11.31 BOE)
- Compiler: HP aCC, A.06.28.01, gcc v4.6 and higher

The Java, .NET, and DLI interfaces are not available on all platforms.
